Epsom U3A's Interest Groups

The University of the Third age (U3A) began at the University of Toulouse in France in 1972 and rapidly spread worldwide. It now has thousands of members. NZ it began in 1989 and is called U3A to differentiate it from degree-granting universities, which it is not.

Initially U3A NZ followed the Toulouse model which recognised the huge pool of brain power, knowledge and experiences held by retired people and ran lectures based on various topics.

Cambridge University in the UK then encouraged people to actively participate in selecting topics, researching, planning and presenting information, as they believed this promotes increased personal learning, confidence and enjoyment by being involved in reading , researching discussion and field trips.

Building on from this philosophy, U3A Epsom has developed interest groups which are the lifeblood of U3A. Each group is led by a Convenor or Convenors. Groups meet regularly (This can be weekly or once or twice each month, depending on the group) See enclosed current timetable.

A typical group has 5-15 members but some have up to 30 enthusiasts.

Venues are usually members' homes, in the community, or at retirement villages.

There is no set timescale for each group to operate. If the topic is very specific it may run for 3-4 sessions, then disband. Alternatively, an active interest group can run for many years.

Currently Epsom U3A, which formed in 1989, has 26 Interest Groups several of which have been operating for many years.

Epsom U3A encourages members to join at least one, if not more groups. Some members belong to several. Each group operates as its members wish and there is no special format.

The Interest Group Coordinator from the committee, provides support and guidance to the convenor of each interest group. The convenors will email members prior to the meetings to remind them of dates, times, trips etc or to clarify who is speaking/presenting or bringing any refreshments.

Please phone the Interest Group Convenor or the Interest Group Coordinator prior to joining, to determine the location, time, format of the group and any special needs/equipment you may need to take.

. If you are unsure if the group may be exactly what you are looking for, ask the Convenor if you could sit in on a meeting.

Each February we suggest you confirm your membership of the group/s you belong to, with the Coordinator or the Convenor.

Lists will be placed out on tables at the February and March main meetings.

Note: Details of phone and email contacts for convenors and the Interest Group Co-ordinator are on the newsletters and on our website.

Kaye Buchanan has the data projector at home. If you wish to use it for a presentation, please phone or email a couple of days

prior, to arrange when to pick it up or drop it back after your meeting. The Deaf Centre has IT equipment available.

Please inform the membership secretary of any changes in email addresses or phone contact numbers. We would prefer mobile numbers so convenors can text or email their members

Email: hap101dx@gmail.com

Meeting time: 9.45 – 11.45

Meeting Day: 3rd Tuesday of the month.

Kia ora!

This Architecture group operates on a shared leadership model. Each member takes a turn to facilitate a 90minute session each month. Usually, the participants only organise ONE session a year. Support is always available.

The four very broad headings that participants choose a topic from, are ***International Architecture, NZ Architecture, Architects, and Elements of Architecture*** (materials, design, elevators, windows, landscape etc - whatever floats your boat). These 4 areas cover anything and everything!

No expertise is required. Most participants have little expertise but love design in relation to spaces and buildings and want to learn something from outside their comfort zone.

Participants might use their 90minute opportunity to invite speakers in, organise a visit to a site in Auckland or share a personal, local or overseas experience in a presentation. Google is a wonderful resource! Haere Mai!
